PROFESSIONAL SUMMARY

Software Engineering graduate with Unity game dev experience and five years of end-to-end business operations management. Adept at translating creative concepts and technical constraints into polished, playable interactive experiences.

TECHNICAL & CORE SKILLS

- **Engines & Tools:** Unity 3D, Cinemachine, Visual Studio, Git/GitHub
- **Programming & Scripting:** C#
- **Game Development:** Basic 3D & 2D Gameplay Mechanics, AI/Pathfinding, Dynamic Camera Systems, Puzzle & Quest Logic
- **Professional Strengths:** International Supply Chain Management, Vendor Negotiations, Cross-Functional Operations, Technical Documentation

GAME DEVELOPMENT PROJECTS

Mariya's Mythical Mayhem | *Unity 3D, C#*

- Developed a complete 3D tower defense game featuring multiple progressive levels and wave encounters.
- Engineered core combat loops, enemy wave spawning mechanics, targeting logic, and defensive placement systems.
- Implemented resource economy, player health tracking, and custom 3D level navigation.

Romantic Quest / Interactive Story Prototype | *Unity 3D, C#, Cinemachine*

- Built a narrative-driven 3D adventure game featuring custom exploration, item collection, and environmental puzzle mechanics.
- Integrated Cinemachine camera sequences and smooth cutscene transitions between real-life video elements and stylized 3D environments.
- Programmed objective-tracking scripts for item gathering, dynamic clue triggers, and sequential quest progression.

WORK EXPERIENCE

Maruf Enterprise	Narayanganj, Bangladesh
<i>Co-Proprietor & Operations Manager</i>	<i>12/2020 – Present</i>

- Directed import logistics and distribution for the region's leading supplier of Optical Brightening Agents (OBA) and textile dyes/chemicals.
- Managed end-to-end global supply chain operations, including international vendor negotiations, bulk procurement, and customs documentation.
- Oversaw B2B client acquisition, account retention, inventory turnover, and debt recovery (dunning) processes across local textile hubs.
- Coordinated warehouse operations, ensuring reliable inventory supply for large-scale manufacturing clients.

AugmedixBD	Dhaka, Bangladesh
<i>Remote Documentation Specialist</i>	<i>01/2019 – 11/2020</i>

- Delivered real-time clinical documentation for healthcare providers in California, USA via live Google Glass streams.
- Maintained a 100% client satisfaction rating while managing high-volume data entry with 70+ WPM typing speed.
- Ensured strict adherence to US HIPAA regulatory compliance and sensitive data security protocols.

EDUCATION

B.Sc. in Software Engineering Daffodil International University	2017
CGPA: 3.03 / 4.00	

PERSONAL DETAILS

- **Date of Birth:** October 20, 1993
- **Blood Group:** O (+ve)
- **Languages:** Bengali (Native), English (Fluent)
